

Come aboard.

CLEVIS Research is an innovative consulting company with renowned customers in the areas of consulting, private equity and venture capital. As a service company we offer our customers tailor-made solutions for on-demand research and consulting. Our strengths are hereby the provision of resources and the high flexibility of our employees.

Market Research (Consulting) Internship

Starting March 2014 (3-6 months) in Munich, Germany

We offer:

- Working on our consulting projects (market analysis, market & commercial due diligence and market entry strategies)
- Responsibility for co-designing market studies about different branches and industries (renewable energies, construction, automotive, healthcare, logistics, etc.) including coordination of freelance staff
- Providing support in primary and secondary research (expert interviews via CATI/face-to-face), information sourcing, know-how-management, etc.
- Integration into a both professional and dynamic team
- Networking with other top students and insight into other CLEVIS business units as well as access to the CLEVIS Group Talent Pool after successful completion of the internship

Your profile:

- You study economics/business administration or a similar subject in the 4th semester or higher
- You speak both German and English business fluently and ideally one or more other languages
- You have distinct analytical skills and work with a focus on results
- You have already gained experience in the consulting areas, e.g. through internships or in a student consultancy
- You bring along independence, the ability to work in a team and curiosity for new challenges
- You have sound experience in working with MS Office applications

Your application

We aroused your curiosity? Then we look forward to your informative application [via email in one single PDF document](#). Please also indicate your earliest possible starting point and the desired duration of the internship.
